During the Day

Children will be as one group if numbers are small or might be in two different groups depending on numbers attending, if split into groups it will be decided by ages. The children will participate and have opportunities to do lots of different sports and activities both indoor and out as well as have lots of fun and using up some of that energy. Children will also take part in crafts as that is part of the day as well as down time is also good. Every day is different but Fun is the main priority.

Please send children in with: Suitable sporty clothes, a lunch box (if staying all day) and their own water bottle. These will come home at the end of the day.

Collection

Vinny or a member of the team will bring the children to the main gate where you dropped your child in the morning. Please wait outside the main gate to collect your children. We will bring all children up together at 3pm unless arranging a pick up at a different time.

Many Thanks
